

The flat pricing covers any labor needed to complete repairs, perform a diagnostic, back-up data, or any other services offered in-store. Parts to repair the computer are not included. In the event we are unable to repair the computer, or the customer declines a repair, the flat rate pricing may be reduced at the discretion of 208GEEK, LLC. The flat pricing fee is charged per computer and repair request. Advanced repairs or building of custom computers will incur an additional charge.
